HOUSTON, TEXAS.

Under the circumstances Mr. Quay can

not come back to the United States senate

unless that body reverses its action in the

past. It is in the power of the senate,

however, to interpret the law for itself,

and a majority of that body may vote to

seat Quay. This might come about

through a deal in connection with other

vacancies. It is doubtful, however, if

political methods in so stark a body as the

United States senate would be permitted

to overturn the construction it has placed

upon the law in the past, to any nothing of

the endless complications in the future

which such a course would open up.

The chances, therefore, are that no serious

effort will be made to seat Mr. Quay

on the strength of the governor's appoint-

ment, but that an extra session of the leg-

islature will be called and the effort to

again elect him will be made. This will

prove cold comfort for the "Pennsylvania

boss," however, for the legislature that

will be convened to pass upon his desira-

bility as senator is the same legislature

which so steadfastly held out against

sending him to the senate as the repre-

sentative of the commonwealth of Penn-

sylvania.

Owner of the Powell Process and a

Reporter as Witnesses.

Washington, April 22.—The Wade court

of inquiry held a brief session today

to listen to the reading of depositions

from Alexander Powell, the owner of the

Powell process for preserving meat, and

Earl de Berry, a reporter of the New York

Times. Mr. Powell stated that he does not

presumed that General Lawton by this

movement will outflank the enemy before

joining General MacArthur north of Ma-

nila.

The Dakota regiment first encountered

the enemy in front of Novaleschua at 7:15

a. m. The Filipinos opened fire on our

troops, but their fire was silenced fifteen

minutes later, the enemy retiring in bad

order and the Americans advancing along

the rough roads around Novaleschua. They

were considerably annoyed by the fire of

the native sharpshooters from the jungle

for two hours. They fled in the afternoon,

leaving many dead on the field and our

troops were compelled to take a brief rest

in the shade, as the heat was overpower-

ing.

Washington, April 22.—The war depart-

ment received a cablegram from General

Osia announcing the formation of a new

flying column under command of General

Lawton and the initiation of a new cam-

paign, which is expected to result in clear-

ing out the jungle in the country north of

Manila to the foothills of the mountains

on the northeast and up to the termina-

tion of the railroad at Bulacan. The text

was found to agree closely with the ac-

count of the movements contained in the

Associated Press dispatch from Manila.

MISSISSIPPI HEALTH BOARD.

Only Danger from Yellow Fever is

from Cuba.

Jackson, Miss., April 22.—The Mississippi

State board of health held its annual meet-

ing here today. The board will not carry

into effect its threat of last year to es-

tablish an absolute quarantine against New

Orleans on the first appearance of yellow

fever. The members of the board are con-

fident that the recent severe winter has

killed all yellow fever germs in this

State and they do not expect the appear-

ance of the disease this summer unless

the germs are imported from Cuba by

returning soldiers. The gulf coast ports

are being closely watched. During the

session county health officers for the sev-

enty-five counties in Mississippi were ap-

pointed and daylight communications be-

tween towns on the gulf coast and New

Orleans granted.

LABOR TROUBLES.

Cotton Operatives in Lancashire Dis-

trict May Strike.

London, April 22.—The position of the

Lancashire cotton trade is becoming ex-

ceedingly serious. The weavers are de-

manding 10 per cent increase in their

wages and the capitalists are organizing

forces for an effective opposition. The

employers contend that a 10 per cent

increase is impossible, but they say they

are willing to make a small increase in

order to avert a strike. The question will

be discussed at a joint conference to be

held at Manchester next Tuesday.

A big strike of miners has begun in

Belgium for an increase in wages. About

40,000 men are now out, a number of

strikes are closing for lack of coal, the

movement and disturbances are feared on

socialism forms an important element

among the strikers.

STEAMER WHITNEY SUNK.

A Boat with Twelve Sunk and An-

other Missing.

Jacksonville, Fla., April 22.—A Times-

Union and Citizen special from Oak Hill,

Fla., says: The steamer General Whitney,

Captain Hawthorne, sunk fifty miles east

of Cape Canaveral today. One boatload

of sixteen men attempting to land at Mos-

quito Lagoon house of refuge was upset

and twelve men, including the captain,

were drowned. The chief engineer, as-

sistant engineer, fireman and one sailor were

saved.

The captain's body has been recovered.

Fifteen men in another boat are still un-

heard from.

SERIOUS CAR Famine.

Trunk Lines Can Not Secure Half the

Number Needed.

Cleveland, April 22.—Railway officials

report that the present car famine is the

most serious ever experienced.

The situation seems to be growing worse

each day. The Lake Shore company, it is

stated, can not supply 50 per cent of the

cars called for and other lines running

into this city are in practically the same

position.

Miners Ready to Arbitrate.

Pittsburg, Kan., April 22.—Delegates

representing 5000 men employed in the

mines of Missouri and Kansas met here

today and passed resolutions calling for

a meeting in Pittsburg in May to arrange

a settlement by arbitration of the miners'

strikes in Arkansas and Indian Territory.
